ENVIRONMENTAL POLICY

As Freysas, we aim at efficient and sustainable use of our resources and generate solutions to reduce the environmental impact and environmental aspects of our activities.

For this purpose, we:

- Provide the required resources for improved Environmental Culture,
- Aim at reducing waste generation at source and use energy efficiently by bringing the environmental impact and environmental aspects of our activities under control,
- Struggle against climate change and work to reduce our carbon footprint,
- Comply with relevant legislation, standards and other applicable conditions,
- Organize training programs to improve the competencies and raise the awareness of our employees.

We monitor our environmental performance and aim at continuous improvement with a proactive approach.

“A sustainable environment for a livable future...”

A handwritten signature in blue ink, appearing to read "Pekdemir".
